## KERN CS 750-3P1

## 4-wire "S" measuring cell made of nickel-plated steel for force and mass measurement

| Category                                    |                           |
|---|---------------------------|
| Brand                                       | Sauter                    |
| Product categoriy                           | Measuring cell            |
| Product group                               | Load/force measuring cell |
| Product family                              | CS P1                     |
| Measuring System                            |                           |
| Weighing capacity [Max]                     | 750 kg                    |
| Load cell connection                        | 4-wire                    |
| Load cell OIML class                        | C3                        |
| Load cell - Resolution (verifiable)         | 3000 e                    |
| Load cell - characteristic value - nominal  | 2 mV/V                    |
| Load cell - Y-value                         | 10000                     |
| Load cell - Combined error                  | 0,02%                     |
| Measuring applications                      | force<br>mass             |
| Load sell - Input resistance -<br>nominal   | 350 Ω                     |
| Load cell - Output resistance -<br>nominal  | 351 Ω                     |
| Load cell - Isolation resistance -<br>[Min] | 500 ΜΩ                    |
| Measuring range force [Max] (N)             | 7,5 kN                    |
| Directions of force                         | tension<br>compression    |
| Approval                                    |                           |
| CE mark                                     | ✓                         |
|   |                           |

| Dimension (W×D×H)               | 50,8×76,2×20,8 mm    |
|---------------------------------|----------------------|
| Material                        | steel, nickel-plated |
| Cable length                    | 3 m                  |
| Mounting - force application    | Threaded hole M12    |
| Mounting - force dissipation    | Threaded hole M12    |
|                                 |                      |
| Functions                       |                      |
| IP protection - complete device | IP67                 |
|                                 |                      |
| Environmental conditions        |                      |
| Use temperature [Min]           | -10 °C               |
| Use temperature [Max]           | 40 °C                |
| Ambient temperature [Min]       | -35 °C               |
| Ambient temperature [Max]       | 65 °C                |
| Storage temperature [Min]       | -40 °C               |
| Storage temperature [Max]       | 70 °C                |
|                                 |                      |
| Packing & Shipping              |                      |
| Readability force [d] (N)       | 1 d                  |
| Dimensions packaging (W×D×H)    | 185×155×60 mm        |
| Net weight                      | 0,52 kg              |
| Shipping method                 | Parcel service       |
| Net weight approx.              | 0,55 kg              |
| Gross weight approx.            | 0,65 kg              |
| Shipping weight                 | 0,617 kg             |
|                                 |                      |
| Services (optional)             |                      |
| Article number for factory      | 961-164V             |
| calibration (tensile force)     |                      |
| Article number for factory      |                      |
| calibration (tensile force/     | 961-364V             |
| compressive force)              |                      |
